Full Stack Developer | Assistant Lecturer

### **About me**

I am an experienced full-stack developer with a strong track record in creating responsive web applications. I specialize in both front-end and back-end technologies, delivering high-quality projects on time and within budget. My skills in problem-solving, collaboration, and staying up-to-date with industry trends make me a valuable asset to any team. I'm excited to contribute my expertise to your organization's success.

### **Tech Stack**

Java Spring Boot Angular Node.js JavaFx HTML CSS JavaScript Flutter Express.js

### **Work Experience**

Training Software Engineer oct 1st (Present)

LexCodeX (ICET) | 2023 oct 1st (Present) Team Leader

Create an e-commerce Website using Spring-Boot/Angular Proficient in Agile ceremonies, including Sprint Planning, Daily Standup, Sprint Review, and Sprint Retrospective. Facilitated collaboration and alignment in cross-functional teams. Gathered stakeholder feedback in Product Owner Review meetings. Managed project priorities and dependencies in Dependency Review meetings.

### **Language & Framework**

JQuery React Js Hibernate Spring Jpa

Database

## ACADEMIC PROJECTS

Student Management System UNI | Developer

A web-based Student Information Management System was created using Spring Boot, Lombok, Spring Data, MySQL, Layade, and Fetch API, JavaScript, HTML, CSS to manage student data efficiently.

GitHub Repository Front-End

GitHub Repository Back\_End

Accomplishments include developing a high-performing e-commerce website with Angular and Bootstrap, implementing secure payment processing and inventory management systems, and maintaining code quality through reviews. Effective communication and collaboration ensured timely project delivery.

Tech Stack

Angular Bootstrap Spring Boot Hibernate GitHub Agile Methodology

e-commerce Web Application

Experienced in e-commerce platform development using Angular and Bootstrap for frontend development, with a focus on Agile methodologies for efficient project execution. Collaborates closely with team members, conducts code reviews, approves PRs, and ensures high code quality for successful project delivery.

Led a software development team to create an advanced e-commerce website using Angular, Bootstrap, and Spring Boot. Utilized Agile methodologies for effective project management and GitHub for version control.
